

VacuMaid® S1600

Cyclonic Central Vacuum

◀ Durable Steel Construction

- Manufactured in the USA
- Made from rolled galvanized steel
- Powder-coated for tough, corrosion-resistant lifetime of use

◀ Power & Design

- Ametek Lamb 5.7" tangential bypass motor provides powerful cleaning capabilities
- Split Canister Design - Hang the dirt canister in an easily accessible location & the motor in a location away from the living environment
- AirChannel™ - Allows a can liner to be used for mess-free debris disposal

◀ Cyclonic Filtration

- Cyclonic filtration
- No messy filters to clog or clean. Virtually 100% sustained cleaning power.

Improve allergy and asthma symptoms

By venting your central vacuum system outside, you remove the dirt and allergens from your home. By ridding your home of these allergy causing irritants, you can improve allergy and asthma symptoms, as well as the air quality in your home.

Clean and simple.

Proudly manufactured in the USA since 1956

VacuMaid® products are manufactured by Lindsay Manufacturing, Inc. in Ponca City, Oklahoma, and have been since 1956. We strive to provide high quality steel vacuum systems at an affordable price. **And, we are proudly made in the USA.**
